

Remi Álvarez Trio

Free improvisation ensemble of very recent creation (2008), composed by *Gustavo Nandayapa*, *Arturo Báez* and *Remi Álvarez*. The trio's music finds its best way to express the diversity of dynamic rhythm, timbric, melodic and harmonic of the compositions by *Álvarez*, which dialogued perfectly with the creation of musical structures in real time by each member of the ensemble.

The meeting of the three is musically very fortunate because even though they have a very different musical backgrounds, seems to be listening to a trio that has worked for many years.
